BIOMETRIKA

VOLUME 71

1984

Editor
D. R. COX

Business Manager
R. F. GALBRAITH

Associate Editors
R. A. Bailey
R. M. Cormack
R. N. Curnow
M. J. R. Healy
D. V. Hinkley
P. McCullagh
P. Newbold
D. Oakes
N. Reid
B. D. Ripley
D. M. Titterington

PUBLISHED BY
BIOMETRIKA TRUST, UNIVERSITY COLLEGE LONDON

© 1984 Biometrika Trust ISSN 0006–3444

Typeset and printed in Great Britain by
John Wright & Sons (Printing) Ltd, at The Stonebridge Press, Bristol

Contents of Volume 71

PAGE

ABBOTT, R. D. (*See* CARROLL, R. J.)

ABRAHAM, B. and LEDOLTER, J. A note on inverse autocorrelations . . . 609

AHTOLA, J. and TIAO, G. C. Parameter inference for a nearly nonstationary first-order autoregressive model 263

AITCHISON, J. and BACON-SHONE, J. Log contrast models for experiments with mixtures 323

ALBERT, A. and ANDERSON, J. A. On the existence of maximum likelihood estimates in logistic regression models 1

ALI, M. M. An approximation to the null distribution and power of the Durbin–Watson statistic 253

AMARI, S. (*See* KUMON, M.)

ANDERSON, J. A. (*See* ALBERT, A.)

ANSLEY, C. F. (*See* KOHN, R.)

AZZALINI, A. Estimation and hypothesis testing for collections of autoregressive time series 85

BACON-SHONE, J. (*See* AITCHISON, J.)

BAILEY, K. T. (*See* CARROLL, R. J.)

BARTHOLOMEW, D. J. The foundations of factor analysis 221

BASAWA, I. V., BILLARD, L. and SRINIVASAN, R. Large-sample tests of homogeneity for time series models 203

BEGG, C. B. and GRAY, R. Calculation of polychotomous logistic regression parameters using individualized regressions 11

BELLHOUSE, D. R. Optimal randomization for experiments in which autocorrelation is present 155

BETHLEHEM, J. G. and SCHUERHOFF, M. H. Second-order inclusion probabilities in sequential sampling without replacement with unequal probabilities . . 642

BHOJ, D. S. On testing equality of variances of correlated variates with incomplete data 639

BILLARD, L. (*See* BASAWA, I. V.)

BOWMAN, A. W. An alternative method of cross-validation for the smoothing of density estimates 353

BOWMAN, A. W., HALL, P. and TITTERINGTON, D. M. Cross-validation in nonparametric estimation of probabilities and probability densities . . 341

BRETH, M. System degeneration and other finite sample nonparametric estimation problems 397

BRIEN, C. J., VENABLES, W. N., JAMES, A. T. and MAYO, O. An analysis of correlation matrices: Equal correlations 545

BROWN, M. On the choice of variance for the log rank test 65

CARROLL, R. J., SPIEGELMAN, C. H., LAN, K. K. G., BAILEY, K. T. and ABBOTT, R. D. On errors-in-variables for binary regression models 19

CHAN, N. N. and MAK, T. K. Heteroscedastic errors in a linear functional relationship 212

CHEN, C.-H. A correlation goodness-of-fit test for randomly censored data . 315
CORMACK, R. M. (*See* SANDLAND, R. L.)
COX, D. R. Effective degrees of freedom and the likelihood ratio test . . 487
CRITCHLEY, F. and FORD, I. On the covariance of two noncentral F random variables and the variance of the estimated linear discriminant function . 637
DALE, J. R. Local versus global association for bivariate ordered responses . 507
DICICCIO, T. J. On parameter transformations and interval estimation . . 477
DICKEY, D. A. (*See* SAID, S. E.)
EJIGOU, A. and MCHUGH, R. Testing the homogeneity of the relative risk under multiple matching 408
FORD, I. (*See* CRITCHLEY, F.)
FRANCO, M. A. P. A log logistic model for survival time with covariates . . 621
FRANGOS, C. C. and STONE, M. On jackknife, cross-validatory and classical methods of estimating a proportion with batches of different sizes . . 361
GABLER, S. On unequal probability sampling: Sufficient conditions for the superiority of sampling without replacement 171
GAIL, M. H., WIEAND, S. and PIANTADOSI, S. Biased estimates of treatment effect in randomized experiments with nonlinear regressions and omitted covariates 431
GILULA, Z. On some similarities between canonical correlation models and latent class models for two-way contingency tables 523
GODAMBE, V. P. On ancillarity and Fisher information in the presence of a nuisance parameter 626
GODAMBE, V. P. and THOMPSON, M. E. Robust estimation through estimating equations 115
GODOLPHIN, E. J. A direct representation for the large-sample maximum likelihood estimator of a Gaussian autoregressive-moving average process 281
GRAY, R. (*See* BEGG, C. B.)
GUNST, R. F. (*See* LAKSHMINARAYANAN, M. Y.)
GUPTA, A. K. and TANG, J. Distribution of likelihood ratio statistic for testing equality of covariance matrices of multivariate Gaussian models . . 555
HALL, P. (*See* BOWMAN, A. W.)
HANNAN, E. J. and KAVALIERIS, L. A method for autoregressive-moving average estimation 273
HINKLEY, D. and WEI, B.-C. Improvements of jackknife confidence limit methods 331
HOSKING, J. R. M. Testing whether the shape parameter is zero in the generalized extreme-value distribution 367
HOUGAARD, P. Life table methods for heterogeneous populations: Distributions describing the heterogeneity 75
HUANG, J. S. and KOTZ, S. Correlation structure in iterated Farlie–Gumbel–Morgenstern distributions 633
HUDA, S. and MUKERJEE, R. Minimizing the maximum variance of the difference between two estimated responses 381
JAMES, A. T. (*See* BRIEN, C. J.)
JARRETT, R. G. Bounds and expansions for Fisher information when the moments are known 101
JENNRICH, R. I. Some exact tests for comparing survival curves in the presence of unequal right censoring 57

KAVALIERIS, L. (*See* HANNAN, E. J.)
KEMPTHORNE, P. J. Admissible variable-selection procedures when fitting regression models by least squares for prediction 593
KOHN, R. and ANSLEY, C. F. A note on Kalman filtering for the seasonal moving average model 648
KOTZ, S. (*See* HUANG, J. S.)
